

360business | Business Liability Plan

- Provides security to a lending institution so that your business entity can meet its loan repayment obligations even in the event of death, disability or critical illness of the key person
- Protects the key person's estate from any surety obligations they may have entered into on behalf of the business entity

Monday 15 August 2011

The Business Liability Plan offers an insurance solution to a business entity:

- By providing adequate security when finances are raised by the business entity.
- Protects the key person's estate from potential liability where such person was required to sign indemnity on behalf of the company.
- A uniquely structured insurance solution that caters for cases with more than one key person and the lending institution requires either joint and/or several liability among the key persons or individual share allocations.
